EDUCATION

K J SOMAIYA INSTITUTE OF TECHNOLOGY **Dec 2021 - Jun 2025**
Bachelor's Of Technology in Computer Engineering (CGPI:- 9.6 / 10) **Mumbai , Maharashtra**
- Specialization in Artificial Intelligence & Machine Learning.

WORK EXPERIENCE

Blazetrail Fintech Solutions Pvt. Ltd. - Software Development Engineer Intern **Feb 2025 – Apr 2025**
- Assisted in the design, development, and testing of software applications.
- Collaborated with developers to implement new features and enhance system functionality.
- Wrote clean, maintainable code and participated in code reviews and technical discussions.

All World Gayatri Pariwar (AWGP) - Web Developer Intern **May 2024 - July 2024**
- Designed and developed a user-friendly interface for an audiobook app, enabling browsing, searching, adding, recording, and playing of audiobooks.
- Collaborated effectively with web development teams, ensuring precise task completion.

Claidroid Technologies - Machine Learning Intern **Dec 2023 - Jan 2024**
- At Claidroid, worked as a Web Developer, creating and optimizing user interfaces.
- Returned as a Machine Learning Intern, gaining hands-on experience with ML models and data analysis.

PROJECTS

- **SAR-to-Optical Image Translation** –Developed a GAN-based deep learning model to convert Synthetic Aperture Radar (SAR) images into optical images, enhancing visual interpretability for remote sensing; research accepted for publication at IEEE IGARSS 2025, Brisbane, Australia.
- **Software Engineering Virtual Labs** – Designed and deployed virtual lab environments to simulate real-world software engineering experiments, enabling practical, hands-on learning experiences remotely.
- **Easy-Ebooks** – Developed an online platform serving as a digital library for engineering students, offering curated academic content and interactive ebooks to improve accessibility and streamline learning.
- **GadgetNet** – Created a marketplace web application for buying and selling pre-owned engineering stationery and gadgets, facilitating cost-effective resource exchange among students.

TECHNICAL SKILLS

- Java, Javascript, C++
- HTML
- CSS
- SQL
- PowerBI, Excel
- Machine Learning
- ReactJs
- Python
- Git, Github, Canva
- **AI/ML Concepts:** Generative Adversarial Networks (GANs), CNN, NLP, transfer learning, model optimization
- **Frameworks & Tools**: TensorFlow, PyTorch, Keras, Scikit-learn, OpenCV, Pandas, NumPy.

ACHIEVEMENTS / ACTIVITIES

- **Research Publication**: Accepted conference paper for publication at IEEE IGARSS 2025 on "Conversion of SAR Images to Optical Images".
- **Leadership**: Served as Joint Treasurer, Institute of Engineering & Technology (IET), managing financial records and coordinating events.
- **Industry Experience:** Completed industry training at Redx Spot Process, gaining exposure to real-world industrial workflows and applications with Internships in various domains.
- **Competitions/Certifications & Courses:** Completed AWS Certification and multiple industry-relevant courses in cloud computing, AI/ML,CyberSecurity and Google data analytics. Also have participated in hackathons like Intech.
